Ankit Raj

Mohali, Punjab – 140413 • ankitrajxd@gmail.com • 8544661277

Education

Chandigarh University 2021 – 2025
Bachelor of Engineering, Computer Science (DevOps) CGPA: 8.35

Paramount Academy 2019 - 2021
Intermediate – 12th Muzaffarpur, Bihar

Woodbine Modern School 2018 - 2019
Matriculation – 10th Darbhanga, Bihar

Projects

CICD Pipeline | *Docker, AWS, Jenkins, Kubernetes*

- Developed and implemented a robust CI/CD pipeline for a web application, leveraging Docker for containerization and Jenkins for automation of builds, tests, and deployments.
- Orchestrated the deployment process on AWS, utilizing services like EC2 for hosting and S3 for storage, ensuring scalability and reliability in the cloud environment.

Deployed 10 Tier Microservice application on Kubernetes | *K8s, Helm, AWS, Docker*

- Orchestrated the deployment of a 10-tier microservices application on Kubernetes (K8s)
- Streamlined the deployment process by creating Helm templates for the application.
- Integrated Prometheus for efficient monitoring of resource utilization within the Kubernetes cluster.

Infrastructure Automation with IAC and Boto3 | *Terraform, Ansible, AWS Boto3, Python*

- Developed a feature-rich movie discovery website using Next.js and TypeScript, allowing users to explore trending movies, search for specific titles, use filters and access detailed information about each film.
- Enabling secure login functionality and personalized features such as the ability to add movies to a watchlist.

Film Flicker | *NextJs, ReactJs, Typescript, MongoDB, Tailwind CSS, Clerk (Auth)*

- Developed a feature-rich movie discovery website allowing users to explore trending movies, search for specific titles, use filters and access detailed information about each film.
- Implemented user authentication and authorization using Clerk, enabling secure login functionality and personalized features such as the ability to add movies to a watchlist.

Leadership & Activities

- Secured first position in Technical Poster Making Competition.

Skills

Technical: Docker, Kubernetes, Jenkins, Terraform, Ansible, Linux, Prometheus, AWS, NextJS, ReactJs, Tailwind CSS, HTML/CSS
Languages: Java, JavaScript, TypeScript, Python, Bash
